

GROWING THE PALM DRIVE LEGACY SOCIETY.

SECURING THE FUTURE.

98 by 28 is a focused planned giving initiative inspired by the 98 palm trees lining Palm Drive and the legacy they symbolize. The campaign aims to grow the Palm Drive Legacy Society from 76 members to 98 by 2028, marking a significant milestone in the University's history and mission.

Reaching 98 members will be particularly meaningful: it will ensure that each of the 98 palm trees is represented by a member, symbolizing a complete

and enduring witness of stewardship, faith, and commitment to the University's mission.

This initiative invites alumni and friends to join a community of faithful stewards who have chosen to include the University in their estate plans. Each new member strengthens scholarships, academic programs, spiritual formation, and faculty excellence, ensuring that the University continues to prepare students for lives of faith, service, and leadership.

WHY PLANNED GIVING MATTERS

- Expand scholarships and financial aid for students
- Strengthen academic programs and faculty excellence
- Support spiritual formation and campus ministry
- Provide stability during economic uncertainty

We invite you to prayerfully consider joining the Palm Drive Legacy Society through 98 by 28.

JOIN US. GROW THE LEGACY. SHAPE THE FUTURE.

OUR GOAL

Through 98 by 28, we seek to grow this community of stewards—honoring those who have already made commitments while inviting others to join them in shaping the future of the University. Adding 22 new members will fully reflect the legacy represented along Palm Drive, with each of the 98 palm trees represented by a member of the Society.

- Increase Palm Drive Legacy Society membership from 76 to 98 by 2028
- Ensure each of the 98 palm trees is represented by at least one member
- A lasting investment in the University's future

Every new member strengthens the University's mission and ensures a vibrant legacy of Christian higher education.
